MINISTRY MEDICAL GROUP & AFFINITY MEDICAL GROUP

Employee Assistance Program

OUR VALUE PROPOSITION

Employee Assistance Programs are designed to help your company's bottom line. EAP offers individualized support and counseling for your employees, organizational consultation for leaders and Human Resource personnel, and support in improving overall workplace culture and morale.

At Employer Solutions EAP we strive to exceed your expectations. Healthy workplaces and healthy employees are more efficient. Tools such as fitness incentives, biometrics, coaching, and condition management can be instrumental in achieving the goal of a healthy workforce, but personal issues can be barriers that prevent employees from committing to a healthy lifestyle. Poor mental health can interfere with employee wellness goals and may sabotage your efforts to create a healthy workplace. That's where Employer Solutions EAP can help.

AFFORDABLE

Your company doesn't have unlimited amounts of money to spend on ineffective resources. We keep our costs affordable but our service excellent and our approaches cutting-edge, to get you the best return on your investment.

Many employees don't seek out professional help they need because insurance deductibles are high and co-pays are expensive. When your company contracts with Employer Solutions EAP your employees can access our confidential counseling services for FREE without the hassles that come with using insurance. We remove barriers to getting help and staying healthy.

BUSINESS MINDED

Your organization is our number one client. We know that employee problems affect your bottom line, and we work to keep your staff, leaders, and culture at optimal performance for the success of your business. In addition to individual counseling and coaching, we also offer consultation to your leaders and HR personnel for issues that affect the culture, morale and performance of your organization. We also offer Leadership Development classes to keep your management teams at their very best.

“

Before companies talk about health they need to talk about mental health.

Bill Schierl, Co-CEO of Team Schierl Companies

”

CREDENTIALLED

Our counselors are Master's Level practitioners with specialties and licenses including: LMFT, LPC, CEAP, SAP, and LCSW. All are licensed to practice professional counseling in the State of Wisconsin. Each counselor has their own specialty or "niche." Organizational Consultation, Trauma Response, Children and Families, Marital, Leadership Coaching, Grief, Interpersonal Conflict, and Anger Management are a few of the areas we specialize in. Employer Solutions EAP staff use EAPA Core Technology to attain outcomes that are beneficial to your employees and your organization.
